

# MYOB Retail Hospitality

The perfect add-on for retailers with multiple outlets

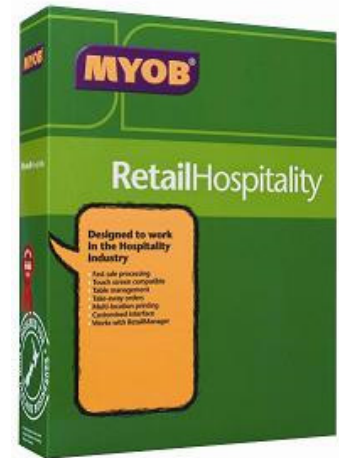

---

RetailHospitalityRetailHospitality

How to mind your own restaurant, café or take-away shop smarter...

## Overview

- \* Track table orders
- \* Process sales
- \* Print dockets to a bar or kitchen

## Description

Designed specifically for the hospitality industry, MYOB RetailHospitality is a computerised touch screen point-of-sale interface that works in conjunction with MYOB RetailManager to provide you with a faster and more efficient way to run your business

Easy to learn and use, MYOB RetailHospitality also enables you to customise screen icons and security features to suit your needs.

By combining MYOB RetailHospitality with MYOB RetailManager, your business will benefit from a seamless solution that can handle everything from tracking orders and tables to managing stock, staff and customer information.

Ideal if you ...

- \* Are running a cafe, restaurant, bar or bakery
- \* Have a touch screen environment
